**KWorld – Leads you ahead in the Multimedia World - Be there to experience our last technology at COMPUTEX- TAIPEI, 2011**

Tuesday, 31 May 2011 10:06

KWorld Computer Co., Ltd., a leading provider in integrated multimedia player, is launching a whole set of new products with the last technology to enrich your multimedia center and audio experience! We will be displaying all product lines such as: PCTV series, Multimedia Editing, Home Media Center and Audio series to enrich your world of entertainment at Computex in Taipei, Taiwan, from May 31st –June 4th, 2011 at the both No. M0832.

Highlight features of new displayed models at KWorld booth include:

**PCTV Series** - has developed PC100-S and PC231-D for users to enjoy of their favorite analog / satellite digital TV program in their computers. PCTV has created great software "TIVme" where users will be able to use a wide variety of functions and features such as: silent recording, schedule recording, FM radio. PC100-S you can watch free-to-air digital satellite (DVB-S) on your desktop computer. It also has an interface with low-profile design for mini-PCs, and it has an additional AV/S-Video inputs for connecting other video sources. With PC231-D you can enjoy watching / recording free to air digital terrestrial TV or worldwide analog TV and listen to FM radio. It supports High Definition (HDTV) for digital and analog channels.

**Home Media Center** – It has developed M300 and M210 with the last technology features. With M300 and M210 users will enjoy watching their media files on the TV in High Definition. It decodes a wide audio, video, picture & subtitle sources, and include very smart software for encoding any other format with HD up to 1920x1080! It also has a convenient variety of output interfaces (HDMI, VGA, YPbPr and Composite).

M210 will let you get online directly on your media player and watch full HD movies or other programs from the internet! This media player is very convenient because it has a 3.5"/2.5" removable hard disk device. M300 supports Android 2.2 O.S, Google TV and Browser function for more convenience. It has an external hard disk and U-Disk and SD/MMC/MS card Reader.

**Multimedia Editing**- The latest model for multimedia is the Monstrous Gaming Maker GM220 with many exclusive functions that will allow gamers enjoy more. With this product gamers will be able to record their best games and share it with friends and other players.

Now gamers will be able to explain clearer and easier the tricks or specific tasks for overcoming some difficult parts of the games. With this Gaming Maker you will have so many options like Displaying your game on your TV, recording your game while playing in high definition, then you will be able to burn edited files on your DVD, VCD, SVCD, and finally upload your videos directly on "YouTube" or on your favorite gaming device such as iPod/PSP among others.

**Audio Series** – has created a wide variety of speakers with very promising features in order to deliver the best performance to each of our users' necessities. Our latest series are: "G Gaming Series", "C Classic", "T Take & To series" and "Z citizen series". "G Series" is an ideal design for gamers, which creates special functions to allow them experience a real gaming realms such as fighting, racing, battles and RPG. "C Series" is special design with wood cabinet and brings you the comfort of quality and artistic beauty. "T series" give you the convenience of taking your product knowing that all basic functions are included, it also gives you the advantage to decide for your product quick, easy and suitable for anyone at an affordable price! And the CitiZen has created more unique and beautiful styles, therefore make your personal space looks more stylish and exclusive. Also we want to provide users with all basic functions for a convenient usability. KWorld wants to give the choice of having a unique design for a valued price! During Computex 2011, KWorld will also let you experience several audio live demonstrations of our latest quality solutions!
