PRESS RELEASE

Advertisement

Taipei, Taiwan - August 9, 2010 - KWorld Computer Co., Ltd., a leading provider in integrated multimedia player, has the honor to be the first time to introduce computer speaker series, and today presents the availability of these three models of speakers- D4, D8 & D14+, with a spectacular sound quality and fashionable appearance to perfect accompany your room's design, therefore, letting you to enjoy the diversified selection of sound's capacity, counting with 4W, 8W and 14W of total outputs, opt to users' choice as for KWorld is one of the first priorities to meet users' necessities with the best quality and variety of products.

KWorld has been working on PCTV area for ages. In recent years, with growing demand for multimedia entertainment devices, KWorld has been entering into speaker technology and it is expected to enable KWorld to scales its multimedia business, and in conjunction with its existing products, so called video segment including analog/digital PCTV, external TV Box, multimedia editing, multimedia converter and media player, to offer a complete product line. Therefore, KWorld computer speaker series is regarded as audio segment and is expected to bring the synergy that is "KWorld enrich your world".

These modern satellite speakers are specially designed in triangular pyramid cubic not only for a great sound and less undesired echo, but also for its stylish design and very small size, making it very convenient for users, and especially for those with limited space. This unique shape avoids excess of reflection within its case to blast clear sound layers in full range with rounded treble and powerful mid-high and full range.

Models - D8 & D14+ are designed to deliver the optimal Hi-Fi sound quality accompany with the incredible powerful & dense bass engineered by KWorld creating the subwoofer, so that the base frequency escapes throughout the bottom driver consistently on the ground, it also has the back air hole to spread the frequency throughout the back wall. Users will be able to have an amazing final result of enjoying powerful live-performance experience.

KWorld has specially designed for model D14+, apart from the regular volume control, an exclusive & stylish pyramid control. This pyramid is very small and convenient to be placed on your desk. Users will only need to turn gently the pyramid to easily adjust the volume.

About KWorld

KWorld Computer Co., Ltd. is one of the leading brands in integrated digital multimedia solutions. By combining and integrating these six different kinds of multimedia solutions: PCTV, External TVBox, Multimedia Editing, Multimedia Converter, Home Media Center and Computer Speaker Series, KWorld can be both the components and solutions for the basic infrastructure of a digital home entertainment center.
